ORGANIZATION OVERVIEW

Minnesota Assistance Council for Veterans (MACV) leads the nonprofit community's effort to end veteran homelessness in Minnesota. Established in 1990 to provide supportive housing services for 13 veterans, MACV now stabilizes thousands of veterans and their families each year. Over the past 35 years, MACV has opened regional offices in the Twin Cities, Duluth, and Mankato. Our organization of over 120 staff shares a single-minded commitment to empowering the veterans and former service members who took an oath to serve us first.

the events

“Without MACV, I'd be homeless.” - Housed Navy Veteran Michael. Michael joined the Navy hoping to see the world and build a better future. After his military service, finding stable employment proved difficult, and as the cost of living rose, making ends meet became more challenging than ever. When Michael connected with MACV, he found a team that helped him navigate resources, stay connected to support, and remain housed while working toward greater stability.

DVNF Staff Helena and Selena attended the event in person. They were able to engage directly with veterans and witness the program's impact. Helena and Selena enjoyed watching veterans happily look through their bags and express their gratitude.
